Stone

Marble and limestone are natural materials where two surfaces are never alike. The stones can contain sediments from fossils, sand holes, glass veins and porosity and all are indicators of genuine stone while attributing to the natural character of the surface. By quotation all stone can be delivered with polyester coating which seals the surface. Not all models are available in all surfaces. Marble is not flexible and won't respond well to heavy loading. Never sit or stand on your marble tabletop and avoid placing particularly heavy items on it. Max load is 20 kgs.

NAME	DESCRIPTION
Grey Pietra Marble	Grey Pietra is a marble with a matt, grey surface with natural, irregular flecks of white. The grey colour of the background can appear uniform but the nuances of grey can vary. The fine white streaks and slightly darker grey glazes give the surface an animated and elegant look. Grey Pietra is sourced from Turkey.
Black Marquina Marble	Black Marquina is an elegant marble with a matt, black surface with natural strong white veins. The intense marble takes its name from the quarries around the town of Marquina from which it is extracted. The irregular white veins can vary considerably from batch to batch. Black Marquina is sourced from Spain.

Fredericia Standard Fabrics

White Carrara Marble	White Carrara is a classic white marble with a matt surface, characterised by the occurrence of natural and irregular grey veins. White Carrara has been used for centuries by architects, designers and artists alike. The white surface can vary in tone and the occurrence of grey to almost black veins can likewise vary in quantity and strength. White Carrara is sourced from Italy.
Dark Atlantico Limestone	Dark Atlantico is a limestone with a beautiful natural surface and warm colour tones in umbra grey shades. Possible aspects of fossils and sediments. Large colour differences to be expected. Extremely sensitive to acids, which can leave non-removable marks. Dark Atlantico is sourced from Portugal.
Ivory Quartzite	Ivory Quartzite is a light and elegant stone with a matt ivory surface. The nuances can vary including the possibility of both light and darker veining. Resistant to acids and scratching. Ivory Quartzite is sourced from Brazil.
Tundra Grey Marble	Tundra Grey Marble is an exquisite natural stone with a unique blend of cloud-like grey hues and pearl tones. Its intricate veining patterns create a mesmerizing visual effect with a fine-grained surface which is smooth to the touch. Tundra grey is sourced from Turkey.

COM fabrics and COL leather

Fredericia offers upholstery in customer-specific fabric and leather (COM and COL), after approval by Fredericia quality department. For textiles and leather that do not appear in Fredericia's standard or Graded-in program, we require a sample of at least 30 x 30 cm for testing, to determine whether the fabric is suitable for the design.

To proceed with COM fabric or leather, please send your request to our Customer Care team via customerservice@fredericia.com

Materials sent to Fredericia are delivered as "DDP - delivered duty paid". Fredericia reserves the right to change the delivery time and charge a fee if the material is not delivered as described above. Please note that customs and other expenses in connection with sending material samples are for the customer's own account.

Such variations are not considered manufacturing defects.

Reservation of ownership

Fredericia reserves, with the limitations resulting from inalienable legal rules, ownership of the sold item until the entire purchase price plus accrued costs has been paid to Fredericia.
