Viccarbe is located in Valencia, a marvellous Mediterranean city where we enjoy more than 300 days of sun a year.

This lighth has a great influence on our feeling for colours, warmth of materials and attention to detail, our sense of humour and the way we look after our friends is what make us different.

## MEDITERRANEAN HOME

We make contemporary furniture developed by the most prestigious international designers. Our collection is a worldwide reference for singular waiting areas around the world.

A piece of furniture that finds its place at home or hundreds of this same piece in a commercial installation; they are always versatile. Our collection is precise, we only make what is possible, good to consume and is absolutely necessary.

We operate in more than seventy countries and we only make our products in Europe pursuant to the ISO 14001 environmental certificate.

Welcome to Viccarbe Collection.

S I S T E M A

We at Viccarbe have dreamed for years of creating a different type of sofa, unlike anything seen on the market.

Our vision has been a very ambitious one, we want to be the first company to create not only a sofa but a complete system composed of independent elements. So, for the first time the client can compose and adapt a sofa using imagination to suit his or her taste, needs and requirement.

There will be a range of different arms, backrest, seats and accessories to choose from. These elements will be expanded with newly developed components each year, thereby creating an innovative concept that adapts to every situation, never seen before.

We are very interested to see how many compositions our clients will create and adapt to suit a home or contract environment.

Having our idea patented, the next step was to decide which designer we want to collaborate with to bring to life the sensitivity and elegance, to create the independent elements which would combine harmoniously together with each other.

For a long time we have admired the Lievore Altherr Molina design team. Their care and detail for proportion have made them a leader in creating masterpieces... so for us the decision to collaborate with them was easy, and they were no less than perfect for this project.
