ACCESSORIES

BY LASSEN — PRICE LIST 2022 BY LASSEN — PRICE LIST 2022 It is by Lassen's vision to share the Lassen brothers' design legacy with the coming generations. The Danish National Art Library has an extensive archive of unknown designs and architecture by the brothers. Many of the furniture designs were only made once for the particular building or home they were created for, so to this day, pieces still come up at auction that were never put into production. The Lassen brothers' archive of architecture and furniture design represents the finest qualities of the Danish design tradition and deserves a wider audience. To that end, we carefully and humbly select the furniture designs we choose to reintroduce to the world to hopefully live a long life in the homes of future generations as beacons of the Danish design tradition that has inspired so many design talents.

BY LASSEN — PRICE LIST 2022

For the brothers Mogens Lassen (1901 – 1987) and Flemming Lassen (1902 – 1984), there was never any doubt that they would become architects. They were born into an artistic family and the ability to create came to them naturally. While other neighborhood boys played with toy cars, the brothers spent their time surveying buildings and sketching them. They were born to be architects and they both took on their roles with pride.

Although Mogens and Flemming were close growing up and shared a passion for drawing and designing, they were also like day and night in their aesthetics. To distinguish between the two brothers, it is generally accepted that Flemming was the master of over-upholstered furniture for the living room, while Mogens understood cubist design language, creating wooden furniture that provided optimum support for the shape of the body, while also being aesthetically pleasing.

The two brothers supplemented each other perfectly and were able to challenge each other, while at the same time being each other's source of inspiration. When out travelling they frequently wrote each other letters, some of which are preserved to this day at by Lassen.

Their design supplement each other perfectly in interior arrangements. The stringent minimalistic and kubistic design Mogens Lassen represents versus the rounded organic shapes from Flemming Lassen.

Mogens: Cubist and angular Flemming: Organic and upholstered

BY LASSEN — PRICE LIST 2022

The Lassen brothers were among the first architects to work with Functionalism in Denmark. The style became a defining characteristic, especially for Mogens Lassen, and he was clearly ahead of his time in the way that he perceived buildings and designs. His architecture featured square shapes and unique arches, large windows, and open kitchens as we know them today.

Both Mogens and Flemming Lassen kept their own studios where they ran their businesses and participated in competitions with their unique designs. For many years, Flemming Lassen also worked with Arne Jacobsen, and together they designed the award-winning Søllerød Town Hall and won an exhibition at the Forum with their 'House of the Future'.

Ingeborg Lounge Chair, Sheepskin Moonlight, by Flemming Lassen Ingeborg Sofa, Sheepskin Moonlight, by Flemming Lassen

Furniture

Lounge Chairs

Mogens Lassen was perceived as 'the naughty boy in class', but he aimed for perfection in each design project. His eye for detail, leaving nothing unnoticed, and his will to try out new methods are clearly seen in this characteristic and timeless chair. It is contemporary proof of his habit of pushing the boundaries of materials and what was comme il faut. Saxe Chair is a folding chair and the seat, manufactured in core leather, truly reaches the limits of how big pieces of leather can be and are enhanced by the moulded, yet massive wooden legs. In the middle of the 20th century, this technique was still in its early years. The beautiful fittings in solid brass work almost as a piece of jewellery on the chair and clearly illustrate how only the finest materials were selected. Mogens Lassen's Saxe chair is a classic example of aesthetics and functionality enhancing one another.

Saxe Hang Up is a matching accessory for the iconic Saxe Chair, designed by Mogens Lassen. The wall mount creates an opportunity to create more space in the room when the Saxe Chair isn't used. At the same time the simple wall mount is a unique way to decorate your home, just as the Saxe Hang Up decorates the wall nicely, while as the Saxe Chair adorns the floor beautifully.

You can choose the simple wall mount in four different colors, so that it suits your interior design. Saxe Hang Up in soap treated oak is perfect for the bright interior design, while the wall mount in brown oiled oak or oiled oak gives a warmer expression. Last but not least the wall mount in black stained oak is a true classic that can adapt to any interior design.

The Tired Man, Lounge Chair

BY FLEMMING LASSEN

Flemming Lassen designed the overstuffed easy chair, The Tired Man, for The Copenhagen Cabinetmakers' Guild Competition in 1935. It is characterised by organic, bearlike shapes and then as now it created a sensation with its curved form and voluminous armrests. Sitting in the chair should, in Flemming Lassen's own ords, be "as warm and safe as a polar bear cub in the arms of its mother in the middle of the ice cap". The family man Flemming Lassen valued intimate relationships - with its warm exterior, The Tired Man invokes domestic cosiness and socialising by candlelight.

Originally Ingeborg was designed in 1940 by Flemming
Lassen. The chair was designed by Master carpenter Jakob
Kjær, who manufactured Flemming Lassen's furniture for The
Carpenters guild Annual Furniture Exhibition. The charming
little easy chair is named after Flemming and Mogens
Lassen's mother, the artist Ingeborg Winding. Despite its
petite size, Ingeborg brightens any room with its charm and
exclusive style. Ingeborg looks beautiful from all angles. It can
be placed anywhere in a room without taking up too much
space.

Ingeborg, Ottoman

BY BYLASSEN

Originally Ingeborg was designed in 1940 by Flemming
Lassen. The chair was designed by Master carpenter Jakob
Kjær, who manufactured Flemming Lassen's furniture for The
Carpenters guild Annual Furniture Exhibition. The charming
little easy chair is named after Flemming and Mogens
Lassen's mother, the artist Ingeborg Winding. Despite its
petite size, Ingeborg brightens any room with its charm and
exclusive style. Ingeborg looks beautiful from all angles. It can
be placed anywhere in a room without taking up too much
space. To complete the look, add the ottoman which is the
perfect match for the chair.

My Own Chair, Lounge Chair

Flemming Lassen's iconic armchair from 1938 was originally only made in a single edition. First, the then controversial, forward-looking armchair was exhibited at The Copenhagen Cabinetmakers' Guild Competition and later it became the favorite chair in the Lassen family home - hence its name. It was launched in connection with the chair's 80th anniversary and now it is also available in a walnut/ sheepskin version. The textile, Colline, from Kvadrat not only compliments the curved shapes of the armchair, but goes with any light decor in need of edge and character.

BY LASSEN — FURNITURE — PRICE LIST 2022

The Constance series is a classic Flemming Lassen design. Curvy shapes. Inviting and comfortable. Projecting side pieces and buttons in the back. Classic and modern qualities that will never go out of fashion. It works well in the middle of a room, as Flemming Lassen's furniture is always equally beautiful from every angle. It was a mantra for his work that furniture should be pulled away from the wall to be placed as a sculpture in a room.

Sofas

BY LASSEN — FURNITURE — PRICE LIST 2022

BY FLEMMING LASSEN

The Ingeborg Sofa is a beautiful and expressive 2,5 pers. lounge sofa, that originally is designed in 1940 by Flemming Lassen. The charming and elegant sofa, that is named after Flemming Lassen's mother, Ingeborg Winding, has the characteristically curvy armrests, a buttoned back and legs made from hardwood. Ingeborg Sofa is based on the same design expression as lounge chair Ingeborg, and together the two now form a matching duo. The elegant size and design of the sofa is beautiful to look at from all angles, which allows you to place the sofa anywhere in the room without taking to much space. The elegant, curvy armrests add character to the design and give the impression of a warm embrace. The lounge sofa was initially presented at the Cabinetmakers' Guild Competition in 1940, which took place at the Museum of Industrial Art in Copenhagen. The lounge sofa was originally designed specifically for a new estate, but has occasionally been spotted at different auctions, which indicated that a small number of sofas was produced. by Lassen is therefore pleased to be able to reintroduce this beautiful and iconic design by Flemming Lassen.

BY LASSEN - FURNITURE - PRICE LIST 2022 67

BY FLEMMING LASSEN

Vilhelm is a beautiful padded three-seater sofa designed by Flemming Lassen in 1935. A sofa must be able to function in several ways. It should invite calm and contemplation. Create a private space you can hide in and at the same time invite to life and play. It must be able to withstand sitting on the backrest or on the armrests and then it must be able to stand in the middle of the room if you want to.In addition to being aesthetically beautiful and harmonious, the design makes absolute sense in relation to these parameters.

BY LASSEN — FURNITURE — PRICE LIST 2022

BY FLEMMING LASSEN

The Mingle sofa was designed in 1935 by architect Flemming Lassen (1902-1984) and was presented at The Copenhagen Cabinetmakers' Guild Competition in the same year. It was subsequently praised for its qualities as a small but elegant sofa in the professional journal "The Architect". Flemming Lassen loved to travel, and he was often inspired by his journeys throughout Europe. He was very taken with both Italy and France, and had a burning desire to tour those countries on his motorcycle. Flemming Lassen wanted to create a sofa made for conversation with a comfort that invited people to stay seated and talk together for long periods of time. The armrests were designed to encircle the sitters, generating intimacy and transforming the sofa into a cosy place to relax. Flemming Lassen took inspiration from both French elegance and modern Italian style, and transferred the trends and his own ideas to a small, upholstered sofa called Mingle.

The state of the stat

BY FLEMMING LASSEN

The Constance series is a classic Flemming Lassen design. Curvy shapes. Inviting and comfortable. Projecting side pieces and buttons in the back. Classic and modern qualities that will never go out of fashion. It works well in the middle of a room, as Flemming Lassen's furniture is always equally beautiful from every angle. It was a mantra for his work that furniture should be pulled away from the wall to be placed as a sculpture in a room.

Counter and Bar Chairs

™ ML 42, Shoemaker Stool

BY MOGENS LASSEN

In 1942 Mogens Lassen designed the Stool ML42 as a piece for a furniture exhibition held at the Danish Museum of Decorative Art. He took inspiration from the stools used by the shoemakers of the past, and transferred the light, elegant look to the creation of this sculptural three-legged stool. The Stool ML42 is considered a collector's item by international design connoisseurs.

Frame 28

BY SØREN LASSEN

Frame 28 is a flexible storage solution consisting of a square module in a cubistic frame. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The Frame modules are available in five sizes: 28, 35, 42, 49 and 70, for use in countless contexts. Combine the Frame modules to create a classic bookcase, a nightstand, a room divider or something else entirely. The possible combinations are endless. The Frame modules are available with or without doors, shelves and drawers, making sure that you can design the perfect storage solution to match your needs for organisation and storage. This variant is a classic Frame 28 module without doors and shelves. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 35 Sideboard with one drawer

BY SØREN LASS

Frame Sideboard is a flexible storage solution consisting of a square module in a cubistic frame with a cubistic black metal base. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. Whether standing alone or as a combination of modules, Frame Sideboard is a beautiful and functional storage solution. Place Frame Sideboard next to the sofa or bed, or use it as a classic spacious bookcase. The Frame module can also be separated from the cubistic Base for Frame and instead hung on the wall if your home needs a new touch, or to cater for changing storage needs. Frame Sideboard is available in different sizes and with one, two or three drawers, featuring a soft-close system and hidden tracks. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 42 with Door

BY SØREN LASSEN

Frame 42 with a door is a flexible storage solution consisting of a square module in a cubistic frame. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The Frame modules including a door are available in four sizes: 28, 35, 42 and 49, for use in countless contexts. The modules can be hung directly on the wall or stand on their own on the floor. Combine the Frame modules to create a classic bookcase, a nightstand, a room divider or something else entirely. The possible combinations are endless. The Frame modules are available with or without doors, shelves and drawers, making sure that you can design the perfect storage solution to match your needs for organisation and storage. This variant is a classic Frame 42 module with a door. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 49 Sideboard with one drawer

Frame Sideboard is a flexible storage solution consisting of a square module in a cubistic frame with a cubistic black metal base. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. Whether standing alone or as a combination of modules, Frame Sideboard is a beautiful and functional storage solution. Place Frame Sideboard next to the sofa or bed, or use it as a classic spacious bookcase. The Frame module can also be separated from the cubistic Base for Frame and instead hung on the wall if your home needs a new touch, or to cater for changing storage needs. Frame Sideboard is available in different sizes and with one, two or three drawers, featuring a soft-close system and hidden tracks. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 70 with two shelves excluding door

BY BY LASS

The versatile and sleek Frame 70 allows you to create entirely new combinations and a new geometric expression for existing or new Frame arrangements. Frame 70 is designed based on the same cubist thinking as the rest of the collection, but it is now taller and slimmer. This makes it possible to use it in narrow places or tight spaces. Frame 70 can also be used to a supplement, so the personal Frame arrangement gets a new and updated look. The Frame 70 module can be hung directly on the wall or stand on their own on the floor on the cubistic base "Base for Frame 35", that both fits the Frame 70 and the Frame 35 modules. Combine the Frame modules to a classic bookcase, a nightstand, a room divider, or something else. The Frame modules are available with or without doors, shelves, or drawers, so you can find the storage solution that matches your need for organisation and storage. This variant contains a Frame 70 with two shelves. The entire Frame collection are manufactured and assembled by hand in Denmark. Just as the collection unites functionality, quality, and aesthetics.

Frame 70 with one shelf and two drawers

BY BY LASS

The versatile and sleek Frame 70 allows you to create entirely new combinations and a new geometric expression for existing or new Frame arrangements. Frame 70 is designed based on the same cubist thinking as the rest of the collection, but it is now taller and slimmer. This makes it possible to use it in narrow places or tight spaces. Frame 70 can also be used to a supplement, so the personal Frame arrangement gets a new and updated look. The Frame 70 module can be hung directly on the wall or stand on their own on the floor on the cubistic base "Base for Frame 35", that both fits the Frame 70 and the Frame 35 modules. Combine the Frame modules to a classic bookcase, a nightstand, a room divider, or something else. The Frame modules are available with or without doors, shelves, or drawers, so you can find the storage solution that matches your need for organisation and storage. This variant contains a Frame 70 with a shelf and two drawers. The entire Frame collection are manufactured and assembled by hand in Denmark. Just as the collection unites functionality, quality, and aesthetics.

With a Frame door, you can further refine your storage solution. The doors are available in five sizes: 28, 35, 42, 49 and 70 to match the sizes of the Frame storage modules. The Frame collection is a flexible storage solution that is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The various Frame modules come in different colours and sizes, which can be combined into a classic bookcase, a nightstand, a room divider or something else entirely. The possible combinations are endless. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Shelf for Frame

BY SØREN LASSEN

With a Frame shelf, you can further enhance your storage solution, making it easier to keep everything tidy. The shelves are available in three sizes: 35, 42 and 49 to match the Frame storage modules. This shelf match both Frame 35 and Frame 70. The Frame collection is a flexible storage solution that is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The various Frame modules come in different colours and sizes, which can be combined into a classic bookcase, a nightstand, a room divider or something else entirely. The possible combinations are endless. The Frame modules can be hung directly on the wall or stand on their own on the floor. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

The Base for Frame is a cubistic frame in black metal that is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The simple and cubistic base is available in two sizes: 35 (which also fits Frame 70) and 49 as an addition to the Frame modules from the Frame collection. With the simple base, you can create a dresser, a bookcase, a nightstand or something else entirely. Simply place the desired number of Frame modules on the cubistic Frame base. The various Frame modules come in different sizes and colours. Depending on your exact storage needs, it is also possible to buy doors and shelves. The possible combinations are endless. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 49 Trio

BY BY LASSEN

Frame 49 Trio is a flexible storage solution consisting of three Frame modules in cubistic frames. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. Frame 49 Trio consists of three Frame modules in size 49: a module with a shelf, a module with a door and a module with three drawers. The drawers feature a soft-close system and hidden tracks. Frame Sideboard Trio works beautifully as a dresser in the living room, tv table or as a classic bookcase. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame 49 Trio Sideboard

BY BY LASSEN

Frame 49 Sideboard Trio is a flexible storage solution consisting of a square module in a cubistic frame and with a cubistic black metal base. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. Frame Sideboard Trio consists of three Frame modules in size 49 with a cubistic base: a module with a shelf, a module with a door and a module with three drawers. The drawers feature a soft-close system and hidden tracks. Frame Sideboard Trio works beautifully as a dresser in the living room or as a classic bookcase. The Frame module can also be separated from the cubistic Base for Frame and instead hung on the wall if your home needs a new touch, or to cater for changing storage needs. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Frame Shoe Cabinet is a new addition to existing Frame modules, adding a new function that makes it an excellent choice for the hallway. With its characteristic frame, Frame Shoe Cabinet is based on the same design as the existing Frame modules, but with new dimensions that makes it even more useful for storing your shoes. The inside is made in metal to ensure that dirt and wet shoes do not damage the cabinet. Placed on the wall, Frame Shoe Cabinet takes up no floor space, which makes it an ideal storage solution for small hallways.Frame Shoe Cabinet is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Lighting

A small and unassuming sketch with a timeless design that speaks to any age and period – such a creature is the new Klampenborg Table Lamp. The lamp has not previously been in production but remained simply a line on a yellowed sheet of paper in the Lassen brothers' achieve at the Danish National Art Library in Copenhagen.

LIGHTIN CANDLE, SMALL LIGHTIN CANDLE, MEDIUM

LIGHTIN CANDLE, LARGE

TO Kubus Micro

BY BY LASSEN

A new small wonder has seen the light of day. Kubus Micro is a stylish, smaller version of the iconic Kubus candleholder and is designed by by Lassen in 2021. It is based on the exact same mathematical geometry as The very first Kubus Candleholder Mogens Lassen designed in 1962. Just very much smaller. Precisely half the size of Kubus 1. The black Kubus-shape frames the light beautifully and adds a minimalist expression to the table setting. Kubus Micro fits a single candle and is perfect for all kinds of festivities, where the table must be beautifully laid, and you want a very special atmosphere. The candleholder works alone in a beautiful still life or arrange several together for a greater effect. A beautiful table for the last celebrations of the year Kubus Micro creates just the right atmosphere at this year's Christmas and New Year table for a sharp and minimalist expression. The black cubistic shapes add a graphic and timeless element, and the iconic design can therefore act as the mainstay of the table setting year after year. The expression on the Christmas table can easily be varied with flowers, napkins or new tableware, while Kubus Micro acts as a traditional eye-catcher year after year. If you keep the table setting in black, silver and white, the same elements can also be used for a festive New Year's Eve. Kubus Micro comes in a package with 2 small candleholders, so they can decorate nicely together in the windowsill, on the dinner table, dresser or even as Advent candles.

With a sharp sense of contemporary Functionalist style, Mogens Lassen designed the iconic Kubus candleholder in 1962, a piece once reserved solely for family and close architect colleagues. The Kubus is still crafted in Denmark, and among architects and design connoisseurs it has acheived the status of a modern international design icon. The story about Kubus 1: Architect Mogens Lassen was commissioned to design the interior for a restaurant in North Zealand, Denmark, and it was within the context of this assignment that the Kubus I was born. The square-shaped Kubus I gathered people around the table just as Mogens intended, and its characteristic shape and simple light created an atmosphere of coziness throughout the entire restaurant. The Kubus I still decorates tables in the very same restaurant, because good design lives on for generations.

🕱 Kubus T

BY SØREN LASSEN

The tealight, Kubus T, was added to the Kubus collection in 2018, designed by Sarah Abbondio. Simplistically and graphic stringency is the keywords describing the candleholder. Choose the classic powder-coated versions, the raw burnished copper, which over time will darken beautifully, gold-plated or the beautiful, shiny nickel version, which is warm and unique in its glow - or combine more for a beautiful, sculptural Still Life on the windowsill or on dinner table.

With a sharp sense of contemporary Functionalist style, Mogens Lassen designed the iconic Kubus candleholder in 1962, a piece once reserved solely for family and close architect colleagues. The Kubus is still crafted in Denmark, and among architects and design connoisseurs it has acheived the status of a modern international design icon. The story about Kubus I: Architect Mogens Lassen was commissioned to design the interior for a restaurant in North Zealand, Denmark, and it was within the context of this assignment that the Kubus I was born. The squareshaped Kubus I gathered people around the table just as Mogens intended, and its characteristic shape and simple light created an atmosphere of coziness throughout the entire restaurant. The Kubus I still decorates tables in the very same restaurant, because good design lives on for generations.

Base for Kubus

BY JACOB MANZ

Base was designed in 2009 as an accessory for Kubus and Line to protect surfaces from dripping candle wax. Base beautifully frames the candleholders and emphasizes the simple design of both Kubus and Line. Base has been designed with the greatest respect for the architect Mogens $\,$ Lassen – both as an architect and as a designer.

BASE FOR KUBUS 4 BASE FOR KUBUS 8

Kubus Line By Mogens Lassen

BY LASSEN — ACCESSORIES — PRICE LIST 2022

With a sharp sense of contemporary Functionalist style, Mogens Lassen designed the iconic Kubus candleholder in 1962, a piece once reserved solely for family and close architect colleagues. In 1983 he reapproached his own geometric candleholders, and the result was Line, whose shape was conceived through a mathematical formula. The two candleholders form a single line, and the architectural look fits perfectly with contemporary minimalism. Kubus and Line is still crafted in Denmark, and among architects and design connoisseurs it has achieved the status of a modern international design icon.

→ Kubus Snuffer

BY SØREN LASSEN

With reference to the iconic Kubus candleholders, the Kubus Snuffer in black is an essential addition to the collection. Avoid drips and wax stains and keep your candleholder pristine by using the snuffer instead of blowing out the candles. With the same cubic metal frame and side length as the Kubus 8 candleholder, the snuffer is designed to be showcased as a natural extension to your candleholder.

Kubus Bowl, Small

BY SØREN LASSEN

The Kubus Bowl is designed by Søren Lassen, and features elements evocative of the Bauhaus school, one of Mogens Lassen's primary inspirations. The German design school believed that good design should be accessible to the people, and this concept appealed to architect Mogens Lassen. The Kubus Bowl is produced in Denmark with a focus on high quality and solid craftsmanship, and the bowl is a natural extension of the iconic Kubus candleholder, designed by Mogens Lassen in 1962. The Kubus Bowl is suitable for home decoration year-round and can contain everything from blossoms to herbs, fruits, vegetables or your favorite candy.

Kubus Bowl Centerpiece, Small

BY SØREN LASSEN

The dictionary definition is "an object occupying a central, especially an adornment in the center of a table" and the Kubus Centerpieces are nothing short of that; an embellishment to any dining table. The centerpieces, designed by Søren Lassen, draws on simple geometric shapes like the square and the hemisphere characteristic for the Kubus collection. Lower than Kubus Bowl, the pieces are perfect for lively flower arrangements, plants and any other creative decoration that would flatter a dinner setting. Every bowl comes with an inlay making it suitable for food and greenery.

Herb pot, vase or a simple container. The possibilities are endless. Another addition to the Kubus collection, Kubus Flowerpots come in three different sizes: Flowerpot 10, designed by Søren Lassen and Sarah Abbondio; Flowerpot 14; and Flowerpot 23, designed by Søren Lassen. The container is deeper than the classic Kubus Bowl, making this a highly versatile storage item. As the name indicates, it was originally intended as a home for plants and flowers, but with its elegant geometric shape it will sit happily in any space as a standalone piece. The Kubus Flowerpot comes in two distinctive monochrome powder-coated colors enabling it to fit into the interior aesthetic of any style-conscious home. Place it on the table, window sill, on the garden table, on the patio, or hang it on the wall with the new universal fittings that give the Kubus Flowerpot a light, airy contemporary look. Like the other containers in the Kubus collection, this also comes with an insert that's recommended for planting.

Frame Box 10

BY MOGENS LASSEN

Frame Box is a square box in a cubistic shape. The simple boxes are inspired by the Kubus candleholder by Mogens Lassen, that are based on strict mathematical formulas and designed with the greatest precision. The Frame boxes are available in three sizes: 10, 14 and 20, which can be combined to exactly match your storage needs. The cubistic boxes can be easily stacked on top of each other, as the handle contains a spring function, which is easily pressed down when a box is stacked on top of another box. The Frame boxes provide a flexible storage solution – perfect for storing office accessories, jewellery, makeup and any knickknacks that need organising and storing. The small and simple Frame boxes are manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.

Addendum

Materials & Maintenance

Below are our general care and maintenance guidelines for all by Lassen products.

- Always follow the instructions for the specific product and material.
- Always use mild cleaning agents.
- Never use chemical cleaning products or harsh abrasives.
- To preserve the colour of the materials, avoid direct sunlight whenever possible.
- Never place products close to heat sources.
- Always protect surfaces against heat, humidity and strongly coloured items.
- Items for indoor use only should never be used outdoors.
- Products made from natural materials will display unique colour/surface variations.
- Tighten assembly screws periodically should joints become loose.

TEXTILE UPHOLSTERY

To clean upholstery fabric, vacuum frequently with a soft brush and low power. Do not rub vigorously as this could result in loss of colour and/or surface damage.

Grand Mohair

Mohair is made from the hairs/fibres of the angora goat. Use a vacuum cleaner regularly to clean the fabric from sand and other dirt particles. Coffee-, tea- or wine stains: Firstly, dry off any leftover liquid with a white paper towel. Secondly, take a white cotton cloth, moisten it in lukewarm water, wring it thoroughly and leave it on the stain. Sitting marks can easily be removed by laying a damp white cotton cloth, e. g. a white kitchen towel (made of cotton), over the spot or by using a steamer. The fabric will recover by applying the beforementioned method. Never use soap or chemical detergents. It may have a negative effect on the fibres/yarns.

LEATHER UPHOLSTERY

Avoid placing leather in direct sunlight or extreme heat. Clean using the suds from household soap flakes. Mix 50 ml. soap flakes to one litre of hot water. When the water is room temperature, apply the foam over the leather with a soft cloth. Avoid soaking. When dry, polish the leather with a clean cotton cloth.

- · Avoid contact with sharp objects.
- Absorb spills immediately with a clean, dry cloth.
- · Vacuum regularly with a soft brush to remove dust.
- · Never use detergents, ammonia, oils, polish or varnish.

Sheepskin

Sheepskin is a natural product, which means the color, texture and length of the wool fibres may vary from product to product. Direct sunlight can cause color changes in the wool. In order to preserve the original condition of sheepskin, vacuum clean and air regularly. For more cleaning tips, please see the advice here: https://skandilock.com/en/care-instructions

Leather For Saxe

Leather is a natural living material that requires maintenance and becomes even more beautiful if properly cared over time. The changes and stretch in the leather, should be expected and is not seen as a product fault. Take care not to place the leather in direct sunlight and extreme heat. Avoid the use of any cleaning agents and do not use sharp objects on the leather. Be aware that core leather is a very receptive material and hence very responsive for any kind of moisture. The colour will get patina and change over time. To care and clean core leather, please use leather treatment intended to core leather.

Nevada Leather

Leather is a natural living material that requires maintenance and becomes even more beautiful if properly cared over time. The changes and stretch in the leather, should be expected and is not seen as a product fault. Take care not to place the leather in direct sunlight and extreme heat. Avoid the use of any cleaning agents and do not use sharp objects on the leather. To care and clean leather, please use leather treatment intended to Nevada leather: https://www.ca-mo.com/articles/nevada/

Vegeta Leather

As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. Over time if you see the need for cleaning, use a vacuum cleaner once or twice a month with a soft brush to remove any dust. Once or twice a year for thorough cleaning, use the foam from soap flakes stirred in warm water. Apply the foam with a dry soft cloth, minimizing any contact with water. Avoid bar soap, saddle soap, leather cleaners, household detergents or chemical products. Protect from direct sunlight, excessive heat and sharp objects. The care and maintenance of leather will always depend on the specific way in which it is used, the conditions of use and how often it is used.

FRAME

When cleaning your Frame box and cabinet, please make sure to clean it with a dry or very slightly damp cloth only. Do not use soap or excessive water. Keep your Frame box and cabinet away from high and low temperatures and extreme changes in humidity. As untreated wood veneer is a living material, it is liable to react when directly exposed to heat, oils, fat, and moisture. Please do not place your Frame box and cabinet next to or in the flow of an air-conditioning unit or heater as this may cause the veneer to crack.

KUBUS

- For maintenance wash the Kubus Bowls with mild soap under hot water.
- Flowerpots and vases can be used indoors and outdoors.
 If used outdoors always bring indoors when the temperature falls below o°C. Use the protective insert if you intend to plant in the flowerpots.
- The Kubus products are not dishwasher safe.
- Never scratch or use wire pads at the Kubus Bowls. Kubus Bowls in copper, nickel and gold plated are not suitable for food products.
- Never use wire pads or scratch with tools on the Kubus products.

Please note that if you want to use your Bowls for planting or storing food or fruit, use the inlay provided. Make sure that there is no liquid between the inlay and the bowl.

Care of white, black and grey:

For cleaning lacquered bowls, wipe the frames with a cloth. Bowls can be washed with a mild soap under hot water.

Care of gold plated and burnished copper:

Gold plated and burnished copper are handpolished which means that the surface will not be identical. Gold plated and copper are materials that develop patina and the surface of the product will therefore change character over time. For cleaning burnished copper and gold plated bowls, use a damp cloth with dish soap.

Make sure to wipe off any residue of the dish soap after cleaning. After cleaning burnished copper candleholders polish the surface with silicone. As they are made from untreated metals, these products need extra care. Do not expose them to moisture or fluids as this may cause them to rust.

Base

When cleaning your Base, use a cloth to wipe. The Kubus Bases are not dishwasher safe.

CANDLEHOLDERS

We recommend that you do not let the candles burn the whole way down to the bottom of the candlestick holder as this may discolour or damage the paintwork of your product by Lassen does not provide any guarantee against dripping candle wax on surfaces and recommend using the candleholders together with a base. Never leave candles burning unsupervised and always keep them away from children and pets.

The candleholders are not dishwasher safe.

Care of white, black and grey:

Place your candleholder in the oven at max 75°C upside down on a tray covered with baking paper for 15 minutes. Once the candleholder is removed from the oven, wipe with a damp cloth. Please do not use boiling water, scrub sponges or other sharp/scratchy objects when cleaning your Kubus or Line candleholder.

Care of nickel:

Nickel is handpolished which means that the surface will not be identical. For cleaning nickel use a cotton cloth with mild soap. Make sure to wipe off any residue of the dish soap after cleaning.

Care of gold plated and burnished copper:

Gold plated and burnished copper are handpolished which means that the surface will not be identical. Gold plated and copper are materials that develop patina and the surface of the product will therefore change character over time. For cleaning gold plated and burnished copper use a damp cloth with dish soap. Make sure to wipe off any residue of the dish soap after cleaning. After cleaning burnished copper candleholders polish the surface with silicone.

Materials & Maintenance

Variations In Natural Materials

LIGHT'IN

Light'in is designed for outdoor use. For indoor use we recommend to take off the lit. The frame and glass can be washed with mild soap and water.

Please note that the lid gets very hot and should be kept out of reach of small children and animals. Use the knob on the top when removing the lid. Do not place a hot lid on delicate or flammable surfaces. Light'in is not dishwasher safe. Never leave candles burning unsupervised and always keep them away from children and pets.

WOOD (SHOEMAKERS STOOL ML42 & SAXE)

For the black stained oak, soap oak, oiled oak and brown oiled oak, please wipe with a moist cotton cloth. The soap oak version variant can furthermore be treated with vegetable soap flakes. Be very carefully not to hit the leather on Saxe when care with soap flakes to avoid stains. There is a risk of damaging the fragile seat corners of the ML42 i case of overturning. This is not liable for replacement.

Natural materials, including but not limited to wood, wood veneer, stone, marble, leather, stoneware and porcelain, display natural markings and/or irregularities that make each product unique. Variations in colour and texture are therefore to be expected and are not considered defects, but rather indications of the material's natural origin.

BY LASSEN — ADDENDUM — 2022

Upholstery

By Lassen Upholstery Program

The by Lassen Upholstery Program is an overview of the textile and leathers available for by Lassen upholstered furniture. All textile and leather options are available in all colors. You'll find over 100 fabric and leather options, with the most popular configurations available with expedited delivery in our Quick Ship program.

Custom upholstery orders from our by Lassen Upholstery Program (SPEC) are ready to ship with standard delivery lead times. Our Fixed Combinations listed in this Brand Book are suggested upholsteries selected by our design team, and deliver with standard lead times. We are happy to upholster furniture using customer's own materials (COM) with extended delivery lead times, upon fabric approval. COM products are to be calculated by PCIT if in textile and PCIL if in leather, excluding the price of the fabric.

Please note that the color references in this upholstery programme are only intended as a guide. For further information please see manufacturer websites, or contact your local by Lassen Sales Representative for samples or further information.

Upholstery Selection & Furniture

The by Lassen upholstery programme shows an overview of our textile and leather standard programme. All textile and leather collections are available in all colours. Please note that the colour references are only intended as a guide. For further information please see manufacturer websites, or contact your local by Lassen sales representative.

Selection of textiles or leather outside of our upholstery programme, is subject to final testing and approval. Additional deliverytime may also occur.
