STRUCTURES by OEO Studio

HANDTUFTED

50% NEW ZEALAND WOOL / 50% BAMBOO

Pile height: 15-18 mm
Weight: 4,50 kg/m2

The series of luxurious carpets by OEO Studio for massimo has a distinctly graphic character. The image – or signifier – is after all the particular legacy of man's presence on earth through millennia. Where two colours meet, their contours are hand cut. This procedure helps eachmotif to stand out. Whilst the process is time-consuming, the result is certainly something to treasure.

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 15-18 mm
Weight: 4,50 kg/m2

The new subdued color scheme of the now iconic Fragments collection by OEO Studio. This new palette allows the design to take on a different role, becoming more sophisticated and mystic in its overall aesthetic. The inspiration behind the Structures collection is "traces of man" with a strong cross- cultural approach. The pattern design of the collection plays with references to past civilizations, drawing inspiration from old Chinese stamps as well as rural art and folklore. Handtufted from STANDARD 100 by OEKO-TEX certified New Zealand Wool, with an additional OEKO-TEX cotton layer on the backside, making it suitable for any type of floor, for both residential and commercial spaces.

Thomas Lykke and Anne-Marie Buemann, founders of OEO Studio, have established a distinct aesthetic which bridges the difference between individual detail and overall décor. Their work can be seen in individual homes, hotels, furniture production and other applications. Their philosophy allows for each project to develop its own 'soul'. This is a factor of both the natural materials they use and the vision a customer has in mind – as is the case with massimo's 'Fragments' series. Colours and materials are often deployed in unexpected ways – each time taking inspiration from their potential to provide a convivial backdrop for human interaction

HEMP by Tanja Kirst

HANDWOVEN

100% ITALIAN HEMP

Pile height: N/A
Weight: 3,00 kg/m2

The collection by Tanja Kirst emerged from the artist's master project "Re: Thinking Hemp" that aims to produce raw textile materials from sustainably cultivated hemp. Handwoven with Italian hemp yarn, each thread consists of 50 thin threads spun together and dyed in bio colour. The colourful palette of the collection is a tribute to nature, while the unique pattern with flat weave and colour and weft effect, creates a different experience every time you enter the room. The rugs are bio-dyed, which gives them their natural colour hues that are woven in optical repetitions and interact depending on the light.

Tanja Kirst's work is characterized by reflection on thoughts and details that you don't immediately recognize. This includes subtle colour transition and gradation into shades. Tanja Kirst works with hemp as a sustainable alternative in textile design, rethinking a well-known material in a space between design and craftsmanship, she gives this eco-friendly material a whole new appeal. With interaction and observation, all the functions and details can be experienced over time. This experimental process and way of designing is developed with an intention to add more value to the textile – and to give a poetic approach and longevity to the product.
