Atoll by Signe Hytte

HANDTUFTED

100% NATURAL EUROPEAN WOOL

Pile height: 12-13 mm  
Weight: 4.5 kg/m2

The Atoll collection is inspired by the world of art and graphical elements. Through calm minimalism and abstract expressionism, the collection is designed to infuse the home with a welcoming tactile quality, achieved through hand-drawn elements that add a personal touch to the rugs. These rugs become small works of art in their own right, and, much like the name 'atoll,' they provide the home with serene and steady "islands" for the furniture to rest upon.

Symmetri by Jacek Kolasiński - Loft Kolasiński

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 15-18 mm  
Weight: 4.5 kg/m2

The "Symmetry" rug collection explores the intersection of natural chaos and human-made order. Inspired by the idea that straight lines are a creation of human invention, each rug features bold, intersecting lines that cross in deliberate patterns, embodying the symmetry we impose on the world. Dynamic streaks flow across the surface, creating a sense of movement and energy, while an intricate framework provides structure and balance. The overall arrangement has a modern, architectural vibe, with the interplay of lines within the framework creating a contemporary, layered aesthetic. Underlay carpet is recommended. Suitable for domestic and contract use.

HANDTUFTED

50% NEW ZEALAND WOOL / 50% BAMBOO

Pile height: 15-18 mm

Weight: 4,50 kg/m2

The series of luxurious carpets by OEØ Studio for massimo has a distinctly graphic character. The image – or signifier – is after all the particular legacy of man's presence on earth through millennia. Where two colours meet, their contours are hand cut. This procedure helps each motif to stand out. Whilst the process is time-consuming, the result is certainly something to treasure.

STRUCTURES 2.0 by OEØ Studio

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 15-18 mm

Weight: 4,50 kg/m2

The new subdued color scheme of the now iconic Fragments collection by OEØ Studio. This new palette allows the design to take on a different role, becoming more sophisticated and mystic in its overall aesthetic. The inspiration behind the Structures collection is "traces of man" with a strong cross- cultural approach. The pattern design of the collection plays with references to past civilizations, drawing inspiration from old Chinese stamps as well as rural art and folklore. Handtufted from STANDARD 100 by OEKO-TEX certified New Zealand Wool, with an additional OEKO-TEX cotton layer on the backside, making it suitable for any type of floor, for both residential and commercial spaces.

Thomas Lykke and Anne-Marie Buemann, founders of OEØ Studio, have established a distinct aesthetic which bridges the difference between individual detail and overall décor. Their work can be seen in individual homes, hotels, furniture production and other applications. Their philosophy allows for each project to develop its own soul. This is a factor of both the natural materials they use and the vision a customer has in mind – as is the case with massimo's 'Fragments' series. Colours and materials are often deployed in unexpected ways – each time taking inspiration from their potential to provide a convivial backdrop for human interaction

HEMP by Tanja Kirst

HANDWOVEN

100% ITALIAN HEMP

Pile height: N/A

Weight: 3,00 kg/m2

The collection by Tanja Kirst emerged from the artist's master project "Re: Thinking Hemp" that aims to produce raw textile materials from sustainably cultivated hemp. Handwoven with Italian hemp yarn, each thread consists of 50 thin threads spun together and dyed in bio colour. The colourful palette of the collection is a tribute to nature, while the unique pattern with flat weave and colour and weft effect, creates a different experience every time you enter the room. The rugs are bio-dyed, which gives them their natural colour hues that are woven in optical repetitions and interact depending on the light.

Unique rugs transformed from traditional centuries old handknotted rugs. We wash them, some we use as they are, some we trash, some we color and some we bleach. We strive to obtain that expression of decadent decay which adds so much class to all kind of environments. The rugs are easy to maintain and the more you use them the more character they get.

RUG UNDERLAY

OEKO-TEX POLYESTER

When choosing a perfect rug, it is important to not forget the underlay. Rug underlay will improve how your rug feels underfoot, but it will also help maintain your rug as well as provide extra protection against moisture. Underlay carpets are also useful as noise protectors as they minimize the sounds such as footsteps, voices or moving furniture.
